

Setting up Rejuvenation Cube with CD Player

Unwrap the **Deluxe Rejuvenation Cube**, remove Quartz Discs from top of cube, remove tape holding quartz crystal tube down. Turn cube on side and lower small 5/8" carbon rods into each crystal tube, then place all 3 (**C**) **Consciousness** inserts into the quartz crystal tubes (**carbons on the bottom**)

- Stand Rejuvenation Cube upright and place the three 2.5" Quartz Crystal Discs on top.
- Connect the 2 pair leads from Rejuvenation Cube to **+ R -** and **- L +** to the lower rear amp terminal.
- Connect 1 external Scalarcoil to **+ R -** and one Scalarcoil to **- L +** to the top rear amp terminal.
- Inserts 5/8" carbon rods and Inert Noble Gas you selected into the external Scalarcoils (**carbons on the bottom**)
- Connect CD player "Y" connectors to **Amp 1** and **Amp 2** RCA audio inputs on the Amplifiers.

5 CDs are used in the Rejuvenation Vortex program. Place CDs marked 1, 3, & 5 into the drawers marked 1, 3, & 5, place CDs marked 2 & 4 into the drawers marked 2 & 4. The "Y" connectors split the CD player audio output. This allows us to send the complex audio program information to the Rejuvenation Cube Amplifiers and the Philips SPA7351 Sound system.

Do not over drive the Rejuvenation Cube for long periods of time as heat may damage the coils

With this new amplifier, heat should not be a problem but hold the External coils from time to time and make sure they are not running too hot. Some of the programs will cause the LEDs to fire while some may not depending on the frequencies that are being played. The Rejuvenation CD contains a very complex program that introduces frequencies as low as 3 hertz. This is beyond the range of hearing but has a huge and direct influence on the brain.

Playing your personal VAHS Frequency Program

Use your VAHS software program to create your personal VAHS frequency CDs. Then use the Rejuvenation Cube to play your program. Remove **CD 5** from the drawer. Use the Disc skip button to rotate the wheel. After closing the drawer **select Disc 5**, then play and enjoy your personal frequency program. Hold the External Scalarcoil and place the body pain pad where needed, (navel etc.). After session, return the original disc and re-start Vortex program. Use the repeat function and the program will run for over 24 hours, (5 rotations) before stopping. *If desired, you may leave your personal CD in and allow it to cycle with the 24 hour program. Just make sure you are allowing for ample rest, not always stimulating your system. The Vortex program is designed to balance stimulation and rest.*

Unwrap the **Basic Rejuvenation Cube**, remove Quartz Discs from top of cube, remove tape holding quartz crystal tube down. Turn cube on side and lower small 5/8" carbon rods into each crystal tube, place the 5 in 1 Inert Noble Gas into the front quartz crystal tube and the remaining 2 (**C**) **Consciousness** inserts into the back two quartz crystal tubes (**carbons on the bottom**)

- Stand Rejuvenation Cube upright and place the three 2.5" Quartz Crystal Discs on top.
- Connect the 2 pair leads from Rejuvenation Cube to **+ R -** and **- L +** to the lower rear amp terminal.
- Connect 1 external Scalarcoil to **+ R -** top rear amp terminal. Insert 5/8 carbon on the bottom.
- If you purchased extra noble gas then place in this coil. **- L +** remains open for future expansion.
- Connect CD player "Y" connectors to **Amp 1** and **Amp 2** RCA audio inputs on the Amplifiers.
