Connect cables as shown above. Connect speaker system (green 3.5mm plug) to remaining mini connector on Y cable. Plug AC cord into digital player Power Dock" for continuous operation.

If player not turned on, push side slide control up and hold for a few seconds to turn digital player on. Repeat this process to put the unit to sleep.

On digital player select music, then sounds, then "Rejuvenation Program".

Place 1 bottle of Rejuvenation Concentrate on top of your Rejuvenation Cube.

Allow program to run through 1 cycle which takes a little over 34 minutes. After the program is finished mix 2 oz's with 1 gallon of distilled water. (You must use distilled water, we require water that has been stripped of memory. Filtered water will not do. Our process will amplify any remaining particulates in that water). Shake well and let stand for 5 minutes. Pour yourself a glass and you will notice that the distilled water has been transformed into sweet tasting water. Continue drinking the water throughout the days and weeks ahead. You will quickly notice that your Rejuvenation Water quenches your thirst while dumping stored toxins. You will experience an uptake of energy while your body is hydrating. Always leave a bottle of Rejuvenation Concentrate on top of your Rejuvenation Cube. The Rejuvenation Water acts like a tuning fork, radiating the positive frequency energy directly to the cellular bio-matrix of the body and environment.
